## FAQs:

1. *What are the differences between Lake Baldwin Tutoring, Orange/Seminole Counties Tutoring, and At-Home Tutoring?*

*Lake Baldwin Tutoring* is the cheapest tutoring option, whereby I tutor you at a public meeting place in Orlando's Lake Baldwin area.

*Orange/Seminole Counties Tutoring* is a convenient option, whereby I tutor you at a public meeting place of your choice in either Orange or Seminole County.

*At-Home Tutoring* is the most convenient option, whereby I tutor you in the comfort of your own home.

2. *How long does the average tutoring session last?*

It depends on how many subjects I am teaching as well as the amount of homework we are reviewing. The average session is about 30 minutes long. A lengthy session is about an hour long. With a structured schedule, our session is not likely to exceed an hour but, if it does, I charge for this extra time by dividing the session's cost into 15 minute increments.

3. *Do you charge extra for lesson planning and/or grading?*

Lesson planning and grading is included in your session's cost. Keep in mind that if you request lengthier lessons and additional homework, the additional cost will be reflected in the extra time I spend tutoring and reviewing during your session.

3. *I read your rates, but how can I further plan for how much your tutoring services will cost?*

Firstly, determine where you want your tutoring to take place. If you're not comfortable learning in a public environment, the *At-Home Tutoring* option may be best for you. Secondly, determine how many subjects you want me to cover in each session. If you want to focus solely on one topic at a time, stick with one subject per session. If your learning flourishes by connecting ideas from related subjects, choose a multi-subject session. Lastly, inform me of your learning goals so I can plan lessons around them.

4. *What if I live beyond Orange/Seminole Counties?*

That's fine! I offer my services online through Skype or Google Chat. I charge the *Lake Baldwin Tutoring* rate for this service.

5. *Are your rates negotiable?*

Rates are non-negotiable after you enter into contract with me. Before a contract is established, it never hurts to ask about discounted pricing. I'm open to matching or beating the prices of any *quality* competition you make me aware of. I give discounts to regular and referring customers as well as active military. For more info or clarification on these discounts, contact me directly.

6. *Are you good with children?*

Yes, I am. I have experience with a loving niece and nephew.

7. *What is the best way to contact you?*
